

| | | |
|---|--------------------------------|---|
| | Sixth Form Reading Group | This society is led by Sixth Form pupils and allows pupils to share ideas and recommend reading in order to furnish a wider understanding of different works of literature through the ages. |
| ART & DESIGN | | |
| ART & DESIGN <i>Trips include: Hauser Wirth gallery, Bristol Arnolfini and Oxford.</i> | Hubert van Zeller Society | For aspiring artists, designers and architects at all ages, this Society supports our Art and design Scholarship Programmes. Hubert Van Zeller was a monk at Downside, who is a famous writer and sculpture, and particularly noted for his work on human suffering from a Catholic perspective. |
| MATHEMATICS | | |
| MATHS | Pascal Society | The 'Mathematics Society' which helps pupils of all ages to learn about the work of famous mathematicians past and present. This society provides ideal preparation for any pupil considering an Oxbridge application for Mathematics or Computer Science. Pascal was a French mathematician, who lived 1623-1662, who was also famous as a physicist, inventor and theologian. |
| SCIENCES | | |
| BIOLOGY | Wallingford Society | The 'Science Society' which provides academic enrichment for scientists at all ages. We have Science Week, where younger pupils enjoy a variety of activities including making rockets, for example. In addition, older pupils are bale to enter the prestigious Biology, Chemistry and Physics Olympiad competitions. |
| CHEMISTRY | | |
| PHYSICS | | |
| | Astronomy Society | This is a society for any budding 'Stephen Hawkings'! |
| | Small Animals Club (pupil-led) | In our Biology Department, we have a selection of creepy crawlies, which allows younger pupils to learn about a variety of different species. |
